

N.C. 98 Wake Forest Bypass (R-2809A)

Construction Fact Sheet

The North Carolina Department of Transportation will continue to update motorists on future impacts to traffic by sending press release to newspapers, radio stations, and TV stations in an attempt to notify the public of upcoming impacts to traffic. *All dates are tentative and weather dependent.*

Hayberry Court:

- Periodically, there will be flaggers along N.C. 98 (Durham Road) to reduce traffic to a two-way, one-lane operation.

Why is this impact to traffic taking place?

N.C. 98 (Durham Road) will be widened to four lanes at this location.

Thompson Mill Road:

- Periodically, there will be flaggers to reduce traffic to a two-way, one-lane operation.

Why is this impact to traffic taking place?

This will allow for the widening of the shoulders and lanes along Thompson Mill Road.

- Thompson Mill Road will be permanently closed to thru traffic at N.C. 98. The southern leg of Thompson Mill Road will not have access to N.C. 98. A cul-de-sac will be constructed just south of N.C. 98.

Why is Thompson Mill Road closing?

Thompson Mill Road must be closed at this location in order to build the Bypass.

- Thompson Mill Road will be temporarily closed to traffic at N.C. 98. As an alternate route, motorists will take a newly constructed road to N.C. 98 Business to the newly constructed N.C. 98 Bypass.

Why will the road temporarily close?

The grade of this section of Thompson Mill Road must be lowered in order to build the N.C. 98 Bypass.

Old N.C. 98:

- Periodically, there will be flaggers to reduce traffic to a two-way, one-lane operation.

Why is this impact to traffic taking place?

This will allow for the realignment of Old N.C. 98.

- Old N.C. 98 will be temporarily closed to thru traffic between Thompson Mill Road and Fleming House Street. As an alternate route, motorists will take Thompson Mill Road to N.C. 98 (Durham Road) back to Old N.C. 98. Jones Wynd traffic will have access via Fleming House Street to Clatter Avenue back to Jones Wynd.

Why will the road temporarily close?

This will allow for the realignment of Old N.C. 98 (Future N.C. 98 Business) between Thompson Mill Road and N.C. 98 (Durham Road).

- Old N.C. 98 will be temporarily closed to thru traffic between Thompson Mill Road and N.C. 98. As an alternate route, motorists will take Thompson Mill Road to N.C. 98 back to Old N.C. 98. Jones Wynd and Flemming House Street traffic will have access via Retail Drive to Warmoven Street to Federal House Avenue to Flemming House Street to Clatter Avenue.

Why will the road temporarily close?

This will allow for the realignment of Old N.C. 98 (Future N.C. 98 Business) between Thompson Mill Road and N.C. 98.

Old N.C. 98 will be realigned between Falls of Neuse Road and Thompson Mill Road and “tee” into the new N.C. 98 Business just south of the newly constructed N.C. 98 Bypass.

Why is Old N.C. 98 being realigned?

This will allow for the construction of the N.C. 98 Bypass

Wakefield Plantation Drive:

- A new connection to the Bypass will be constructed away from traffic.

Retail Drive:

- Periodically, lane closures on N.C. 98 Bypass near Retail Drive will occur.

Why is this impact to traffic taking place?

This is necessary to connect the new section of N.C. 98 Bypass to the existing (resurfacing and pavement marking installation).

The N.C. 98 Wake Forest Bypass and U.S. 1 Interchange:

- Periodically, lane closures on existing N.C. 98 Bypass near the U.S. 1 Interchange will occur.

Why is this impact to traffic taking place?

This is necessary to connect the new section of N.C. 98 Bypass to the existing section.

N.C. 98 (Durham Road):

- Periodically, there will be flaggers to reduce traffic to a two-way, one-lane operation.

Why is this impact to traffic taking place?

This will allow for the construction of the N.C. 98 Bypass and the realignment of N.C. 98 (Future N.C. 98 Business).

N.C. 98 will be realigned.

Why is Durham Road being realigned?

This will allow for the construction of the N.C. 98 Bypass.

Falls of Neuse Road:

- Periodically, there will be flaggers to reduce traffic to a two-way, one-lane operation.

Why is this impact to traffic taking place?

This will allow for the realignment of Falls of Neuse Road.

Why is Falls of Neuse Road being realigned?

This will allow for a direct connection to the new N.C. 98 Business.

Garden Hill Road:

- Periodically, there will be flaggers to reduce traffic to a two-way, one-lane operation.

Why is this impact to traffic taking place?

This will allow for the realignment of Falls of Neuse Road and construction of new N.C. 98 Business.

- Garden Hill Road will be temporarily closed to traffic at the newly realigned Falls of Neuse Road. As an alternate route, motorists will take Wakefield Plantation Drive back to Garden Hill Road.

Why will the road temporarily close?

This will allow for the realignment of Falls of Neuse Road and construction of the new intersection.

Jones Wynd:

- Jones Wynd will be temporarily closed to traffic at Old N.C. 98 during two separate periods.

Why will the road temporarily close?

This will allow for the realignment of Old N.C. 98 (Future N.C. 98 Business) between Thompson Mill Road and existing N.C. 98.

Flemming House Street:

- Flemming House Street will be temporarily closed to traffic at Old N.C. 98.

Why will the road temporarily close?

This will allow for the realignment of Old N.C. 98 (Future N.C. 98 Business) between Thompson Mill Road and existing N.C. 98.

Fawn Drive:

- Fawn Drive will be realigned to intersect with the newly realigned/constructed N.C. 98 Business.

Why is Fawn Drive being realigned?

This will allow for the realignment/construction of N.C. 98 Business.

Quarterfoil Street:

- Periodically, there will be flaggers along N.C. 98 to reduce traffic to a two-way, one-lane operation.

Why is this impact to traffic taking place?

N.C. 98 will be realigned.
